## BTRE-5PK

(5)bt Range Extenders

- Features:
- Cast brass housing, aged brass finish
  - 5 db external antenna
  - LED network indicator light
  - 5 Foot wire lead, 16 awg (UL listed), brown, pre-connected to the fixture, pre-stripped for easy wire connection
  - Plastic ground stake (8.5 in; 21.6 cm length)
  - Ten year warranty

The bt system uses Bluetooth Mesh technology to communicate. The mesh network becomes stronger with more devices in the same network. A distance gap between fixtures can cause a loss of communication. To ensure that all of your fixtures communicate with each other, install bt range extenders to each network on every job no matter how big or small.
