POWER AND CONTROL

IT2 SERIES TRANSFORMERS

App-controlled for on/off remote control and scheduling. Uses WiFi or Bluetooth to connect.

Up to 3 individually-scheduled zones for maximum lighting control (example: walkway, tree lights, pergola).

Astronomic and clock-based timing.

150 watt and 300 watt models.

XF SERIES TRANSFORMERS

Rugged professional-grade multi-tap transformer sets the standard for ease of installation and adaptability with a full-range of contractor-friendly features. Stainless steel case. Ready to use with optional clock timer, photocell or iTimerPRO app-based control. 150, 300 and 600 watt models.

TF SERIES TRANSFORMERS

Offer an outstanding value with a rugged cabinet, easy wire connections, and built-in photocell and timer. Ideal for smaller systems and residential sites. TF200/300 have a digital multi-function timing system for convenience. TF150 is 150 watts. TF200 is 200 watts. TF300 is 300 watts.

TF150

TF200/300

iTimerPRO APP-BASED CONTROL

iTimerPRO upgrades most standard transformers to app-based remote control and on-screen programming. Astronomic and clock-based schedules. It is the most popular way to quickly upgrade existing transformers to app-based control and is compatible with a wide range of existing transformer brands.

BT SYSTEM

Download the Free
BT App

BT SYSTEM APP

Advance your landscape lighting designs to the next level with the full capabilities of the Alliance BT System. App controls a BT system from any iOS or Android mobile device (phone, tablet). Functions as a remote control for dimming, changing color temperatures, RGBW colors and more. Fixtures can be grouped within the app for easy application of lighting scenes. Provides ultimate convenience and customization from the palm of your hand.

BTRE

BTRE-SM

BTRE PLUGIN

RANGE EXTENDERS

Used to repeat BT signals to assure reliable communication to all fixtures. These are essential and mandatory to compensate for distance, obstructions, elevation changes, etc. that diminish signal strength. Multiple versions available for installation convenience. Request a copy of our BT System Guide for complete planning information.

BT SYSTEM FIXTURES

Onboard BT system capability is available on a wide selection of Alliance fixtures covering every possible landscape lighting need. Look for the BT system logo next to the fixture in this guide, or consult our catalog for more information.

BT ALLY LAMPS

Add the control capabilities of Alliance's BT System to existing lighting fixtures with BT Ally drop-in lamps. Like BT fixtures, these lamps offer RGB color adjustability, tunable white and dimming capability. Available in MR16, PAR36 and G4 Bi-Pin.

DC BAYONET

2.5 watt

FINISH OPTIONS

Aged Brass (Standard)

Premium Black Overcoat
(Optional) -BLK

PREMIUM BLACK OVERCOAT

Black overcoat is applied to brass base.

Alliance does black fixtures better, for a lifetime finish.

Our Premium Black Overcoat is applied to a BRASS fixture housing (not aluminum) so it's inherently corrosion-resistant in harsh environments. If the fixture is nicked or scratched by maintenance equipment, there's no chance of destructive corrosion and blistering of the finish common in aluminum fixtures.
