

# Upgrade Any Transformer to App-Based Control

it Pro

## Alliance's iTimerPRO Makes It Easy

Homeowners want to control and schedule their lighting from their mobile device. Now you can offer them the full benefits of the Alliance it PRO app without changing their standard transformer by adding the iTimerPRO. Simply unplug the existing mechanical timer and connect iTimerPRO.

- Gives your customer app-based control of outdoor lighting
- Easily set, change and view schedules from a mobile device
- Automatic astronomic (sunrise/sunset) adjustment based on location (no photocell issues)
- No need to access customer's WiFi to set-up or use (Bluetooth)
- Outstanding range from external antenna

**Ask for iTimerPRO at your distributor**

## New DUO Model

**Have two transformers side-by-side?**

Our new iTimerPRO-DUO has two 120V, 15 amp outputs for your connection convenience. Also handy for water features, holiday lights or other landscape enhancements.

Model: **iTimerPRO-DUO**
