

HARDSCAPE LIGHTING: CHALLENGES SOLVED ✓

ALLIANCE
OUTDOOR LIGHTING

Hardscapes define our outdoor spaces but lighting them isn't always easy. That's where we come in — with lighting solutions designed specifically for hardscapes.

From stone walls to steps and ledges, each feature brings its own challenges. At Alliance Outdoor lighting, we have smart lighting solutions designed specifically for hardscapes. And they're all available in both bt and non-bt options. Here's how we solve your hardscape challenges:

HARDSCAPE SOLUTION #1 LEDGE LIGHTS

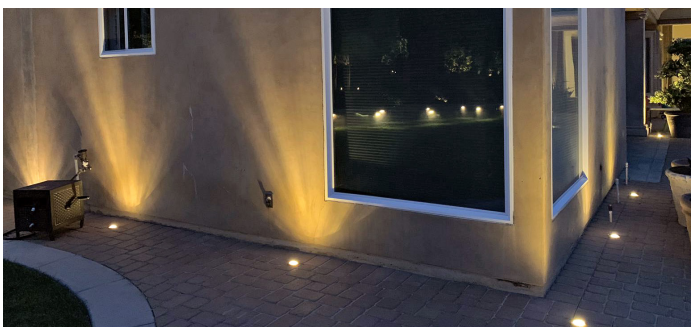

Tight spaces? No problem. Our **Ledge Lights** fit seamlessly under ledges and caps, delivering even, shadow-free lighting. Built for longevity, it's a sleek solution for walls and seating areas. Available in both bracket and surface mounts and a variety of widths.

HARDSCAPE SOLUTION #2 STEP LIGHTS

Safety and style come together with our **SL25 and SL35** step lights. Designed to tuck discreetly into steps, they offer glare-free illumination that keeps pathways visible without overpowering the space.

HARDSCAPE SOLUTION #3 IN-GROUND LIGHTS

Perfect for uplighting columns, walls, or trees. Our **GL100 and GL300** Series sit flush with the ground for a clean look and zero trip hazards. Its solid brass construction ensures it stands up to heavy traffic and tough conditions. Several lid styles available to customize your lighting.

HARDSCAPE SOLUTION #4 TAPE LIGHTS

Our new **TAPE-BT** strip light is flexible, waterproof, and made for curves, corners, and creative applications. It's easy to install and perfect for highlighting edges and details. Available in 5' and 15' lengths - cut to size.
