

All-New Strip Lighting Solutions

Enhanced Features, Improved Performance, Available Today!

What's New

NEW SILICONE-ENCASED STRIP LIGHT provides concealed, glare-free solution for stairs, railings, patios, seating areas and outdoor kitchens. Slim, half-inch square profile hides easily under bullnose, cap stones, countertops and more.

Enhance with even, diffused light with no hot spots. Integrated LEDs are encased in flexible, non-yellowing extruded silicone jacket for 120° light dispersal and maximum outdoor protection. IP 66 rated.

Add Color with App-Controlled RGBW

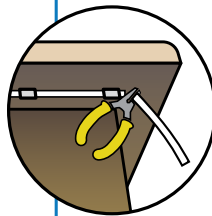

- 2.8W per foot, 150 lumens per foot
- Uses Alliance bt app to control tunable white, RGB color, dimming and grouping options
- Works with other BT system fixtures and lamps and range extenders
- Includes BT system communication box in lead wire. Installs above-grade for best signal.

Safety, Beauty, Task Lighting with Soft White (2900K)

- 2.6W per foot, 150 lumens per foot.

Quick Install

Mount brackets at 1' intervals, then snap strip tightly into place. Available in 5' and 15' lengths (plus 30' for soft white only). Can be trimmed as needed. LEDs are spaced 2" apart; strip can be cut anywhere. (scrap material cannot be used or spliced)

- **10' lead wire provided**
- **Mounting hardware provided, no adhesives needed**
- **Not for use within 10' of swimming pools or spas**
- **Optional channel mounting, recommended where perfect linear alignment of strip is needed. Sold in 3' sections, model TAPE-SLV3**

Models Available:

- TAPE-LED-5FT** 5' length, Integrated Soft White LED
- TAPE-BT-5FT** 5' length, Integrated RGBW LED, control with BT App
- TAPE-LED-15FT** 15' length, Integrated Soft White LED
- TAPE-BT-15FT** 15' length, Integrated RGBW LED, control with BT App
- TAPE-LED-30FT** 30' length, Integrated Soft White LED
